This Senior Design Project is brought to you for free and open access by the School of Engineering, Technology and Computer Science Design Projects at Opus: Research & Creativity at IPFW. It has been accepted for inclusion in Computer and Electrical Engineering Technology & Information Systems and Technology Senior Design Projects by an authorized administrator of Opus: Research & Creativity at IPFW. For more information, please contact admin@lib.ipfw.edu.

Android™ Role Playing Game

Submitted By:

Matthew Andrews & Joshua Anthony

To Fulfill B.S. Computer Engineering Technology Requirement

Advisors:

Prof. Gary Steffen & Prof. Iskandar Hack

ENG W421 Technical Writing Report

Submitted to:

Paul I. Lin, Professor of CPET 491 Senior Design II

Department of Computer, Electrical, and Information Technology
College of Engineering, Technology, and Computer Science
Indiana University-Purdue University Fort Wayne, Indiana

Abstract

The Android Role Playing Game is the perfect way for the typical video game junkie to find quick and quality entertainment. It is an application that requires minimal resources from both the user and their phone. This application will allow the user to take control of a character of their choice and use said character to battle against endless hordes of enemies in their quest.

This project will produce the ground floor level prototype of this application. The application will contain the core mechanics needed to produce the final version of this game. Once the game is completed at a later time it will be available for download on the Google Play Store free of charge.

Table of Contents

| | |
|--|------------|
| Abstract | i |
| List of Illustrations | iv |
| List of Tables | vi |
| Executive Summary | vii |
| Chapter 1 Introduction to Android RPG | 1 |
| 1.1 Problem Topic | 1 |
| 1.2 Background | 1 |
| 1.3 Criteria | 1 |
| 1.4 Methodology | 3 |
| 1.5 Primary Purpose | 3 |
| 1.6 Overview | 3 |
| Chapter 2 System Design Overview and Research | 4 |
| 2.1 Feasibility | 4 |
| 2.2 Design Process | 4 |
| 2.3 Legal Aspects | 4 |
| 2.3.1 Sounds | 4 |
| 2.3.2 Images | 5 |
| 2.4 System Scope | 5 |
| Chapter 3 Software Design | 7 |
| 3.1 Software Architecture | 7 |
| 3.2 Programming Language | 12 |
| 3.3 Development Environment | 13 |
| 3.4 Main Components | 14 |
| 3.5 UML Diagrams | 14 |
| 3.5.1 Initial UML Diagrams | 15 |
| 3.5.2 Revised UML Diagrams | 19 |
| Chapter 4 Unit Testing | 29 |
| 4.1 Software Testing | 29 |
| 4.2 Software Validation | 29 |
| 4.2.1 Operational Requirements | 30 |
| 4.2.2 Performance Requirements | 32 |
| 4.2.3 Physical Characteristics Requirements | 34 |
| 4.2.4 Utilization Environment Requirements | 35 |
| 4.2.5 Functional Requirements | 37 |

Table of Contents

| | |
|---|-----------|
| Chapter 5 Project Management | 39 |
| 5.1 Schedule & Time Management | 39 |
| 5.1.1 Initial Schedule | 39 |
| 5.1.2 Revised Schedule | 40 |
| 5.2 Resource & Cost Management | 41 |
| 5.3 Quality Management | 41 |
| 5.4 Risk Management | 42 |
| 5.5 Project Procurement | 44 |
| 5.6 Lessons Learned | 44 |
| Chapter 6 Conclusion | 45 |
| References | 46 |
| Appendices | 47 |
